Subject: Settlement

Good day.

I would like to add my voice among those who disagree with the proposed settlement of Microsoft's antitrust suit. Education is the last (and fading) stronghold for Apple computer, and to have Microsoft place its products for free in schools would be the death of Apple. The only way this would work is to have Microsoft PURCHASE NEW APPLE EQUIPMENT with the fine \$'s and place it in schools--this being an actual punishment.

Think, please.
